ABDULAZIZ AYESH

AI Specialist | AI Engineering & Agentic AI

Abdulaziz.M.Ayesh@gmail.com | +966 565766895 | Riyadh, Saudi Arabia | LinkedIn | Portfolio

SUMMARY

AI Specialist with hands-on experience designing, building, and deploying production AI applications. Skilled in agentic AI, LLM integration, backend APIs, cloud deployment, and automated model evaluation. Experienced in end-to-end AI solution delivery, production reliability, and leading cross-functional development teams across projects.

EXPERIENCE

AI Specialist
SahmAlgo | Riyadh, Saudi Arabia **Jul 2026 - Present**

- Built a production AI investment assistant serving 300+ users and processing 4K+ messages in three months.
- Developed agentic workflows integrating 17 tools through MCP and internal and external APIs.
- Managed AI deployment and infrastructure, ensuring reliability, scalability, and production performance.
- Led cross-functional development and delivered an AI prototype for a potential enterprise white-label integration.

AI Intern
SahmAlgo | Riyadh, Saudi Arabia **Jan 2026 - Jun 2026**

- Developed an MVP customer service chatbot using embeddings and RAG.
- Built the initial ChatAlgo MVP for Saudi stock market analysis.

EDUCATION

Bachelor of Science in Artificial Intelligence **Aug 2021 - Aug 2026**
University of Prince Mugrin | Medina, Saudi Arabia

SKILLS

Technical Skills

- **Programming & Backend:** Python, FastAPI, REST APIs, Git
- **AI & Machine Learning:** Scikit-learn, PyTorch, TensorFlow
- **Generative AI:** LLMs, Agentic AI, LangGraph, RAG, MCP
- **Data Science & Analytics:** Pandas, NumPy, SQL, Power BI
- **Cloud & DevOps:** Google Cloud, DigitalOcean, Docker

Soft Skills

- Problem Solving
- Analytical Thinking
- Technical Communication
- Leadership & Team Management
- Cross-Functional Collaboration

PROJECTS

RIFD | Capstone Project

- Developed a multi-agent AI chatbot for domestic abuse support using LangGraph and RAG.
- Designed an agentic architecture with specialized agents for complex query handling.
- Implemented automated evaluation using test cases, evaluation metrics, and LLM-as-a-Judge.

Advanced Human Detection & Tracking

- Built a real-time human detection and tracking system using OpenCV and YOLO.
- Implemented movement tracking, path visualization, and heat maps to analyze traffic density.

CERTIFICATIONS

- **IBM Machine Learning Professional Certificate** | IBM **Nov 2026**
- **Agentic AI with LangChain and LangGraph** | IBM **Nov 2025**
- **Fundamentals of Reinforcement Learning** | University of Alberta **Dec 2024**
